

EisBaer DLM-Controller 6

includes license for 6 charging points

Compact EisBaer stand-alone server for continuous 24/7 operation as an industrial built-in device. Ideal for EisBär Pro Domo, Starter, Professional, and Architect license sizes. The fanless, dust-protected design makes it particularly low-maintenance, while optionally available mounting kits for DIN rails, VESA and 19" racks ensure maximum flexibility during installation.

- Suitable for industrial use and dust-protected
- Fanless design
- Fanless, passive cooling
- Intel® Celeron® N100 processor (Turbo 3.4GHz)
- Intel® UHD Graphics 600
- 16 GB DDR4 RAM
- 128 GB NVME SSD
- Operating system: Windows 11 Professional
- Power supply: 12 V DC SELV
- Energy efficient TDP 10 watts (max. 25 watts)
- Compact, robust, and low maintenance
- 2x USB 3.0 and 2x USB 2.0
- 2x RS232 COM
- 2x Ethernet (10/100/1000 Mbit)
- 1x HDMI 1.4 / 1x VGA
- Operating temperature: -10°C to 60°C
- Humidity: 30 - 90%, non-condensing
- Device dimensions: 135 x 127 x 39mm / 8TE
- FCC Class B, UL, CE, and RoHS compliant
- Visualization: EisBaer DLM-Project includes license for 6 charging points
- 12V DC/230V AC power supply & DIN rail mounting kit included
- Optional: WLAN 802.11ac + BT
- Optional: EisBaer HI-Server 6.0 – VESA mounting kit
- Optional: EisBaer HI-Server 6.0 – 19" mounting rack
